EDUCATIONAL PROGRAMS FOR UKRAINIAN REFUGEES

About Us

The Educational Equality Institute is an NGO based in Norway committed to educating and empowering disadvantaged girls through education.

In response to the war in Ukraine, we started the project “Together for Ukraine” to provide free educational programs for 100,000 Ukrainians.

We strongly believe education, upskilling, and employment are among the most impactful ways to support and help rebuild Ukraine.

We prioritize designing and implementing highly effective programs to support our beneficiaries. Utilizing the latest technology, automation, and a streamlined organizational structure, we efficiently deliver targeted assistance to those in need. Our dedicated team consistently seeks innovative ways to enhance our impact.

In partnership with leading businesses and organizations worldwide, we collaborate closely to develop programs that align with industry needs and trends. This ensures that our beneficiaries receive the skills and knowledge necessary for success.

I applaud this important step! I believe it will be an example for other universities. Yes, war scars will remain on our streets. But only as a reminder of what you can't forget.
